What happened on the financial markets

US growth rose by 1.6% in the 1st quarter of 2024, well below expectations of 2.5%. The disinflation process seems to be coming to an end, or at least is more limited than expected. Weaker growth and sticky inflation are the main themes driving the markets. The upside potential of risky markets therefore seems more limited. For its part, the ECB has all but pledged to cut interest rates in June, on the back of growth that may be accelerating but is weaker than in the USA, and inflation that is 1% lower at 2.7%.
